General Expectations for your exam period:

- Bring your own pencil and show up on time. The exam will start right after the bell.
- You will have **only the 90 minutes** scheduled for your period to complete the exam **unless** you have previous arrangements with your teacher. If you need more time, you have to come to the make up session the **same day** as your final.
- You are expected to be here on time and **stay** in the classroom for the **entire 90 minutes**.
- If you have a history of completing tests and quizzes before the allowed time, make sure you **bring something with you to read or study**.
- The classroom must **remain quiet**, and in testing mode for the **entire 90 minutes**.

How the Final Exam will impact your grade:

All 4 units from the semester will be tested on the exam. On each learning target, you will solve a small set of problems. This will be weighted at one and a half (1.5) times a regular test.

During your exam:

- **You may ONLY use your note sheet on the final.** It must be in your handwriting. It will be checked at the beginning of the exam. You will turn it in with your final.

How to prepare:

- Complete the study guide given to you by your teacher and check your answers!
- Add examples/notes to the back of your note sheet
- Using your tests, quizzes, classwork and homework, create a graphic organizer that summarizes the main ideas, important concepts, problems, etc from each unit.
- Prepare flashcards with key ideas, formulas, etc.
- _____ (your own idea)
