

## Project Ideas From P1

REMEMBER: YOU NEED TO COMPARE 2 VARIABLES

1. HS students and cheating
  - a. Do Freshmen/Sophomores or Juniors/Seniors admit to cheating more?
  - b. Anonymous vs non-anonymous surveys?
  - c. Survey plus a fact vs just survey?
  - d. Biased wording
2. Shapes vs flavors of Chex Mix
  - a. Do different flavors have different percentages of shapes?
  - b. Do different sizes have different percentages of shapes?
3. Does music affect productivity?
  - a. Classical music vs rock music for studying/homework
4. Does self-esteem affect your GPA?
5. Does grade level affect whether or not you have a plan for after high school?
6. Do different age levels have different bias in music?
7. HS students and sports?
  - a. Grade levels like different sports
  - b. Genders and different sports?
8. Does your eye color affect your favorite color?
